Good morning Todd as you may know we still have some concerns with our property. Through email we have been corresponding with Gerry and he had requested that I meet up with him to discuss these. Do to my work schedule I am unable to meet with him for a few weeks. Therefore on Wednesday after the MPC meeting Kara asked Gerry if he had a few minutes to talk . Gerry said multiple times he would not talk to her and only would talk to myself even though she is on title for our property. Is this how the town conducts business with its citizens? I think it's very unprofessional and degrading.

thank you for your time
Jason Martin

Good morning Jason,

Thanks for following up. A couple thoughts.....

I apologize for the misunderstanding. Your email below was posed as a comment and not a question and therefore it was not noted but not responded to. Secondly, I have followed my staff involvement with your file for many months and I've traced it back more than a year. Staff have been more than accommodating and taken time to respond to your numerous inquiries and questions in a thorough and professional matter. I estimate the staff time involved to research your questions, meet with you, and respond have totalled in excess of 40 hours.

There is no doubt that part of our role as Town staff is to respond to resident requests and where possible support and resolve matters. We have been clear on what the Town is able to assist with and gone as far as possible to guide and support you in finding solutions to your problem.

At any point if you have new information or circumstances that we are not aware of please feel free to reach out to any of my departments that may help. But, for now we have concluded our work on this matter.

Regards,

Todd Sharpe
